

Dear FCC,

Does anyone in your commission really believe the Kerry smear program Sinclair is trying to run is acceptable broadcasting policy? Many Americans are outraged, and your silence and inaction in this are only deepening the rift between our nation's people in this election time. If we can't count on the agencies designed to protect us from these types of Corporate Hustling, we've got big problems in this country. Please take action with your voice and policy....don't allow this shame to go on in all our names. Sincerely, David Scher
